## PROFESSIONAL SUMMARY

---

A Computer Science graduate with a strong foundation in programming, software development, and applied AI. Experienced in building practical solutions across web development, machine learning, and intelligent systems. Combines technical skills with a user-centered mindset to design and deliver impactful software. Motivated to grow and contribute in dynamic technical environments.

## SKILLS

---

Python | Java | C++ | HTML | CSS | JavaScript | PHP | SQL | Machine Learning | CNN | RAG Systems | Low-Code AI | UI/UX Design | IoT & Embedded Systems | Microsoft Office

## EXPERIENCE

---

### Small and Medium Enterprises Bank (SME Bank) — Riyadh, Saudi Arabia

*Co-op Trainee*, 02/2026-06/2026

- Gained practical exposure to digital transformation and digital governance frameworks within a banking environment.
- Analyzed the end-to-end customer journey on the Funding Gate portal and contributed to UI/UX enhancements to improve the user experience.
- Built a RAG (Retrieval-Augmented Generation) system for a Hologram project, sourcing and structuring content from the bank's official website and Funding Gate portal.
- Developed a low-code AI chatbot using Microsoft Copilot Studio to support internal operations.

## EDUCATION

---

### Princess Nourah bint Abdulrahman University — Riyadh, Saudi Arabia

Bachelor of Computer Science

*Graduated: May 2026*

## PROJECTS

---

### Nathirah — AI Graduation Project | 2026

- Developed an AI-based system to predict breast cancer recurrence using a Convolutional Neural Network (CNN) trained on MRI images and clinical data.

### Pet Care Shop — Web Development Project

- Built a fully functional e-commerce website for pet products using HTML, CSS, JavaScript, and PHP.
- Implemented a relational database to manage products, user accounts, and shopping cart functionality.
