Summary

Computer Science student at Princess Nourah University and Apple Developer Academy graduate with a strong focus on UI/UX Design and digital product design. Experienced in user research, wireframing, prototyping, and designing intuitive interfaces through real-world projects. Passionate about creating user-centered experiences while collaborating in cross-functional teams.

Education

Princess Nourah Bint Abdulrahman University <i>Bachelor's Degree / Computer Science</i>	08/2023 – Present Riyadh,Saudi Arabia
Apple Developer Academy @ TUWAIQ <i>Education Scholarship / Software Development and UI/UX Design</i>	09/2025 – 06/2026 Riyadh,Saudi Arabia

Projects

Ezibda — AI-Powered Photo Organization App (macOS)

- Led the end-to-end UI/UX design using Figma, from user research to high-fidelity prototypes.
- Designed a scalable design system and improved navigation for managing large photo collections.
- Collaborated with developers and stakeholders throughout iterative usability testing.

Adeste — Digital Wellbeing App

- Designed and developed an iOS app that encourages healthier screen habits through habit-building and contextual app blocking.
- Conducted UX research and designed user flows, wireframes, and high-fidelity interfaces.
- Built the application using SwiftUI while balancing usability with behavior-focused design.

Abyan-UI/UX Case Study

- Designed a mobile investment experience following a user-centered design process.
- Conducted user research, created wireframes, interactive prototypes, and usability tests in Figma.
- Developed a scalable design system focused on clarity, accessibility, and trust.

Athar ACC — Education App

- Conducted user research with accessibility considerations.
- Designed an intuitive card-based communication interface in Sketch.
- Developed the iOS application using SwiftUI.

Certificates

- Google: UX Design Professional Certificate
- Oracle Certified: Database Foundations
- Oracle Certified: Java Foundations
- CCNA Certified: Introduction to Networks
- Coursera Certificate: Interactive Computer Graphics

Skills

Design

Figma | Sketch | Wireframing | Design Systems | Prototyping | User Research | Usability Testing

Technical

Swift | SwiftUI | Xcode | Debugging & Testing | Java | SQL | App Deployment

Business

Product Development Lifecycle | Marketing Strategy | Entrepreneurial Mindset | Project Management | Team Leadership

Languages

Arabic — Native/Bilingual

English — Fluent
